BriSCA F1 is the pinnacle of oval racing in the UK. The season runs from March through to November, with occasional meetings at Christmas. The new craze spread rapidly around the country and was dubbed the 'seven day wonder'. Cars are custom-built and race on oval tracks of either shale or tarmac of approximately a quarter-mile in length.

Racing is full contact, which means drivers are allowed to push, punt and spin fellow competitors out of the way, although these maneuvers are often subtle as opposed to simply crashing into each other. Most of the cars were American models with V8 engines, with some larger European cars. Originally, the cars were slightly modified saloon cars, hence the term stock as opposed to race cars. 1300 Saloon Stockcars - Nutts Corner Raceway - Grand Sim-Stox Saloon Stockcar Action. The tracks are surrounded by either an Armco barrier or post and cable fences to keep the cars on the track.

Welcome to the 1300 Saloon Stockcars which will be.. All venues that stage BriSCA F1 racing must be licensed by BriSCA.
History[edit]
BriSCA F1 Stock Car racing can trace its roots to the first stock car race in United Kingdom, which was held at New Cross Stadium in London on Good Friday, 16 April 1954, promoted by a Northampton-born Australian showman called Digger Pugh. All drivers wishing to race at a BriSCA F1 meeting have to be registered in advance by the BSCDA.. The cars are unlimited horsepower with drivers using any engine they choose, with Chevrolet based small or big block V8 engines being the most popular.. The cars are very strong and are of an open wheel design, but are made with the contact element in mind, with front and rear bumpers and sturdy roll cages.. 5Races9TracksAdministration[edit]BriSCA (British Stock Car Association) F1 Stock Cars are governed by the BriSCA Management Board, comprising three members of the association of promoters (BriSCA) and three members of the BSCDA (British Stock Car Drivers Association) together with an independent secretary.. Rules and regulations relating to car specifications, race procedures, track requirements and all other aspects of the sport are updated annually by the BriSCA Management Board.
